### REASONS FOR ALLOWANCE

6. Claims 36-39, 41-42, 46-52, and 60-66 are allowed.
7. The following is the Examiner's statement of reasons for allowance:
8. Regarding the claimed terms, Applicant is reminded that a "general term must be understood in the context in which the inventor presents it." *In re Glaug* 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). Therefore the Examiner must interpret the claimed terms as found on pages 1-82 of the Specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings . . . the inventor's lexicography must prevail . . . ." *Id.* Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.
9. The closest prior art of record, Foster (6,322,134) and Katis (US 6,601,761), discloses as previously discussed.
10. In view of the Decision of the Board of Appeals and Interferences, (See BPAI Decision pg 8 In 8-18), independent claims 36 and 41 and their dependent claims 37-39 and 42 are deemed allowable.
11. Additionally, In view of the Decision of the Board of Appeals and Interferences (BPAI Decision pg10 In 3-13), independent claims 46 and 60 and their dependent claims 47-52 and 61-64 are deemed allowable.
12. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3685

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CRISTINA SHERR whose telephone number is (571)272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.

14. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Calvin L. Hewitt, II can be reached on (571)272-6709. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

15. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
